

EKAMPREET KAUR

Full Stack Developer | Microsoft Certified (AZ-900)

Mohali, India | +91 8427350757 | ekampreet1289@gmail.com | [linkedin.com/in/ekampreet-kaur-9b968820a](https://www.linkedin.com/in/ekampreet-kaur-9b968820a)

PROFESSIONAL SUMMARY

Results-driven **Microsoft Certified (AZ-900) Full Stack Developer** with 3+ years of experience engineering scalable, high-performance web applications and cloud-integrated systems. Proficient in leveraging Microsoft Azure cloud ecosystem methodologies alongside robust backend architectures (Node.js, NestJS) and modern frontend frameworks (Angular). Expert at designing secure REST APIs, executing complex third-party enterprise integrations, and managing database optimizations across the entire Software Development Lifecycle (SDLC).

CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals (AZ-900)** – Validates foundational engineering knowledge of cloud architecture, core Azure infrastructure services, cloud security, privacy, compliance, and governance.
- **Postman API Testing Learning Path Certification** – Verified proficiency in automated and manual API validation, test scripting, and secure communication strategies.

CORE COMPETENCIES

Cloud & Infra:	Microsoft Azure Cloud, AWS, Core Azure Services, CPANEL API, WHM API
Backend Dev:	Node.js, NestJS, Prisma ORM, PHP (Yii), RESTful API Design, Express.js
Frontend Eng:	Angular, AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design
Databases:	MySQL, phpMyAdmin, Database Normalization & Query Tuning
APIs & SDKs:	Twilio API, SendGrid API, OpenAI ChatGPT, Namecheap API, Google Maps API

PROFESSIONAL EXPERIENCE

Full Stack Developer – AJ Devtech Pvt Ltd, Mohali Jan 2023 – Present

- Architected, developed, and deployed feature-rich, portal-based web applications integrated with mission-critical third-party cloud infrastructure and APIs.
- Engineered scalable, modular, and fully responsive user interfaces using Angular, optimizing cross-browser compatibility and UI execution speed.
- Developed high-performance backend microservices using Node.js and NestJS, optimizing API latency and ensuring 99.9% system uptime.
- Successfully integrated complex third-party enterprise APIs: Twilio API (automated messaging), ChatGPT API (AI content automation), and Namecheap API (domain management).
- Structured, optimized, and managed relational database schemas using MySQL and phpMyAdmin, emphasizing strict data integrity and query performance tuning.

- Utilized Postman to conduct rigorous API contract testing and end-to-end debugging, eliminating data flow discrepancies between systems.
- Collaborated closely within Agile teams to plan sprint cycles, manage version control via Git, and maintain clean code deployment pipelines.

KEY PROJECTS

SocialPoster10X [\[Live Link\]](#)

Angular, NestJS, Prisma, MySQL, AWS

An automated, multi-platform social media publishing tool allowing AI content optimization and seamless scheduling.

- Leveraged OpenAI's ChatGPT API for contextual content optimization and automated post copywriting generation.
- Managed secure server deployment pipelines utilizing CPANEL, WHM, and Namecheap automation APIs to streamline domain configurations.
- Designed interactive multi-account dashboard interfaces with Angular to enable cross-platform content previews before publishing.
- Implemented Prisma ORM layers to handle complex relational workflows, schema migrations, and high-frequency content scheduling tables securely.

The Review Portal [\[Live Link\]](#)

Angular, NestJS, Node.js, Prisma, AWS

A business automation portal dedicated to helping companies maximize Google Reviews and customer engagement.

- Engineered a secure authentication dashboard and unified multi-channel messaging infrastructure.
- Integrated Twilio and SendGrid APIs to trigger automatic customer feedback alerts and reputation notifications dynamically.
- Optimized database indexes and normalization inside MySQL to fetch customer ratings, text reviews, and campaign statistics metrics rapidly.
- Constructed secure JWT-based auth tokens and request authorization safeguards inside NestJS backend microservices.

WebMailPro [\[Live Link\]](#)

Angular, PHP (Yii), MySQL, Namecheap API

An automated domain, hosting, and email configuration system enabling programmatic environment setups.

- Programmed background logic communicating with Namecheap, CPANEL, and WHM APIs to eliminate manual setup.
- Automated programmatic domain registration, immediate DNS verification handling, and automated mail routing.
- Architected scalable REST API endpoints using PHP (Yii framework) to check programmatic record statuses synchronously.
- Designed a clean, responsive Angular user interface displaying complete mail health statuses, storage metrics, and active MX records.

WPGATEWAY [\[Live Link\]](#)

AngularJS, PHP (Yii), MySQL, CPANEL/WHM API

An all-in-one WordPress hosting automation platform supporting rapid provisioning, cloning, and backups.

- Cross-integrated CPANEL and WHM administration interfaces with an automated backend framework.
- Enabled one-click automated CMS environment cloning, background file management, and instant server provisioning.
- Constructed automated MySQL database backup procedures and cron routines to secure site files on external AWS nodes.
- Integrated dynamic SendGrid email alerts to keep administrators notified of theme/plugin updates, security risks, or server scaling actions.

Call Tracker [\[Live Link\]](#)

Angular, NestJS, Node.js, Twilio Voice/SMS SDK

A production-ready, real-time communications platform handling mass automated text and voice routing.

- Built the core real-time messaging pipeline utilizing a scalable NestJS backend architecture.
- Integrated Twilio infrastructure components to guarantee minimal transmission latency across enterprise mass routing configurations.
- Configured detailed call-logging tables and voice recording playback pathways, providing metrics analytics out of the box.
- Conducted end-to-end API testing routes with Postman to detect and troubleshoot system-to-gateway data formatting gaps.

EDUCATION

B.Tech in Information Technology – Chandigarh Engineering College

2019 – 2023

Non-Medical High School Certification – Ryan International School

2018 – 2019

LANGUAGES

English (Professional) | Punjabi (Native) | Hindi (Professional)
